

KLOVE radio station is a well listened to radio station and I as well as many of my friends would be greatly dissappointed to see it taken off the air. It really uplifts it's listeners mood. Furthermore, I strongly believe that taking KLOVE off the air would have a negative impact on young people. It is a positive radio station, which is what our young people need, especially in the world we live in today. Please step up and don't allow LPFM stations take priority over FM translator services.

Thank You,  
Christina L. Houk
